

### Transition

With big changes coming up, our Year 6's have a lot on their minds this term. Focusing on saying 'good-bye' to our Primary School experiences and 'hello' to new opportunities, friendships and school careers, we have secondary schools visiting to meet their pupils. There are a number of planned core group programs run by us and the local secondary schools. External speakers will also focus Year 6's on their health and well-being during this time.

### Maths

We will be focussing on problem solving activities and concentrating on life skills associated with maths. We will also be using our math skills to fundraise for our Leavers Evening!

**Term: Summer 2025  
(Second half term)**

## **Year 6 "Take a Bow"**

### History

We are looking at the changing power of the Monarchy through the ages; in particular looking at Charles II, Elizabeth I and Charles III. We will look into the differences of 'absolute' monarchy and 'constitutional' monarchy.

### DT

As part of our design and technology curriculum, pupils will design and make props for their production, using recycled materials. They will also plan and design their Production Programme, which will be printed and handed out.

### PSHE

#### **Changing Me**

We will be covering important topics such as:

- body image,
- puberty and feelings,
- conception to birth,
- reflections about change,
- physical attraction,
- respect, consent
- transition.

### Music - Celebrations

Music will be focused on preparing for the production. Involving solo's, choral work and performing songs to routines.

### Science

This term, we are continuing to explore electricity, through electrical circuits. This topic will continue through until the end of the school year, ending with our own Dragon's Den!

### English

Year 6 will be busily focussed on independent writing this term. Their theme will be 'Change'. They will be considering how change affects us all. Alongside this topic, they will be reading the book 'Wonder' by R. J Palacio.

### Computing

#### **Computing systems and networks – communication & collaboration**

We will understand computer networks, including the internet; how they can provide multiple services, such as the World Wide Web, and the opportunities they offer for communication and collaboration. We will also use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.

### PE/Games

In Physical Education, we will be focusing on athletics and sports day preparation.  
Monday: Athletics  
Friday: Summer Games
